

New! Recy[®] Clear

Contains post-consumer
recycled plastic waste.
Crystal clear!

Recy[®] Clear – the next generation

The Recy[®] packaging series is an excellent example of a circular packaging innovation. Recy[®] packaging initially is made from recycled plastic flower and plant sleeves and shrink wrap returned to the Dutch flower auction houses. Now we introduce the next generation, made from post-consumer recycled plastic*, Recy[®] Clear. The material is crystal clear, easy printable and can be processed on Terra machines.

*GRS certified material

Recy[®] Clear 70%

Contains 70% post consumer recycled plastic waste. Material is crystal clear! Also new sizes, less material used, better for our environment.
